

LETTER OF RECOMMENDATION

To Whom It May Concern,

I am writing a letter of recommendation regarding Chris von der Lippe who I have known for 13 years or more. This is a professional letter validating the skills of Chris, who owns his own production company, On The Water Productions. Chris' company, On The Water Productions has produced television programming for the two stations I have worked at, Access Nashua Public Access and Goffstown Public Access television. Goffstown programming was from 2002-2008, and in Nashua, New Hampshire, between 2012-2016. Chris has worked as a camera operator for my own company, CMSg, LLC, around the Community, at the Senate and House sessions, as well as in Senate and House hearings between 2010-2015. He had a real specificity for detail when videotaping these government sessions.

Chris has worked successfully as a freelance editor and director of photography with his company, On The Water Productions. Chris works very well with editing in Sony Vegas 9, 10, 11, 12 and 13, and in operating the Sony HXR MC 2000 high definition video camera and the Panasonic AG HVX 200, P2 camera. Chris is also proficient with Final Cut 10.

Chris has produced many excellent original field programs for Nashua Channel 96 including a Special Olympics show called Special Talk where he has gone above and beyond in seeing that they are recorded and edited for airing. Chris has produced and directed other programs for Access Nashua as well, including The New Hampshire Expo, The New England Women's Leadership Summit, and the Laconia Fest. He has assisted in videography for many other events as well.

I would recommend Chris von der Lippe for any position whether it would be as producer, director, director of photography, or editor. Chris can learn any of the necessary editing systems, or cameras, that any television station or film production company would require.

I would also recommend Chris to any company that is interested in merging with his company, On The Water Productions. Chris, in addition to his own production work for Access Nashua he has produced his own original programming that he had written and directed called "Lessons". Based on this experience, I would recommend Chris to produce original programming for an independent production company or any film production company. He has the solid interpersonal communication skills, and business skills, along with a dedication to a project, to create successful original programming for any television station or film company. You can look at his work on his website www.onthewaterproductioncompany.net.

My name is Dick Gagnon, CMSg Operations Manager and I would be available to answer any questions. I can be reached at dickg56@gmail.com.
